

CAUTION: RISK OF ELECTRIC SHOCK DO NOT OPEN WARNING: TO PREVENT INJURY, THIS APPARATUS MUST BE SECURELY ATTACHED TO THE WALL IN ACCORDANCE WITH THE INSTALLATION INSTRUCTIONS. CAUTION: DO NOT REMOVE COVER. NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL. BEWARE OF STATIC SENSITIVE PARTS.

This equipment has an IP44 rating and is suitable for use in Zone 2 and Outside Zones.

Digital Video Broadcasting

Waste Electrical and Electronic Equipment (WEEE) Directive

In the European Union, this symbol indicates that this product should not be disposed of with household waste. It should be deposited at an appropriate facility to enable recovery and recycling.

This product contains Electrical/Electronic Parts which are produced using components in compliance with the requirements of: European Union Directive **2002/195/EC** for the Restriction of the use of certain Hazardous Substances in Electrical and Electronics Equipment (RoHS).

Safety Instructions and Warnings

Do not use a damaged socket and do not let the power cord touch a heat source. *This may cause an electric shock*

Make sure the wall frame is securely fixed to the wall.

The mirror frame weighs 14.5Kg (32 lb) and when the unit is open during installation all of the weight is on the hinged side.

Do not attempt to service the unit. Contact an authorised dealer or repair service. Servicing the unit yourself may cause an electric shock or fire.

Do not connect the Mirage to a trailing plug and socket outlet.

This may present a shock hazard.

If there are any unusual sounds or smells coming from the unit, turn it off immediately and contact an authorised dealer or repair service. *This may cause an electric shock* or fire.

Keep the power adaptor away from any heat source. *This may cause a fire.*

If an outside antenna is connected to the unit, ensure the external to internal cable entry is fully sealed *This may cause an electric shock* or fire.

Ensure the antenna is located away from overhead cables. This may cause an electric shock.

This equipment must be installed by a competent person, in accordance with current IEE wiring regulations. If in doubt consult a qualified electrician.

Always switch off the electrical supply at the mains during installation.

Fitting in Bathrooms is subject to the appropriate location (see IEE Zones opposite). Refer to IEE Regulations.

This product is suitable for Zones 2 and Outside Zones. It is not suitable for installation in Zone 0 or Zone 1.

It is not suitable for installation in Saunas, Steam Rooms or Shower Cubicles.

Fire and Safety regulations must be obeyed.

The 12VDC power adaptor is not waterproof and so must be positioned in a dry, well ventilated area away from any water and moisture.

This product has an Ingress Protection Rating of IP44 and is only suitable for indoor use.

Make sure the wall frame is securely attached to the wall in accordance with the installation instructions. The mirror frame weighs 14.5 Kg (32 lb) and when the unit is open during installation all of the weight is on the hinged side.

It is recommended that the unit is cleaned with a soft dry cloth when turned off. Do not use abrasive materials.

Failure to observe the above safety warnings may invalidate the warranty.

Items Required

The Mirage weighs a total of 16 Kg (35 lb) and must be fixed securely to the wall. It will be necessary to use screw fixings which are appropriate for the type of wall in question.

The eight mounting holes in the wall frame are 5.5 mm Ø and will accept a number 10 screw with a head diameter of up to 10 mm.

Silicone Sealant produces acetic acid during cure. Use only in well ventilated areas. Irritating to eyes. Wash hands after use and before meals. Wash splashes from skin, clothing and other surfaces. In case of contact with eyes wash immediately with plenty of water.

Please observe safety precautions on the container. Keep out of reach of children and animals.

Unpacking your Mirage

Please note – A technically competent person should carry out the installation of your Mirage.

If any items are missing, contact the dealer that supplied the Mirage. The Mirage kit consists of: 1 wall frame 1 mirror frame

- 1 AC/DC adaptor with integral 4 metre lead and 2 AC leads
- 1 waterproof remote control
- 1 remote control holder
- 1 standard remote control
- 1 Mirage instruction manual.

Unpacking your Mirage

Unpacking your Mirage

Installing the Wall Frame

Please note - All required cabling for HDMI, PC RGB, SCART, S-Video, Component and Composite Video should be installed at this stage.

Installation and positioning Three grommets in top of wall frame The cabling to the Mirage can be routed in two ways; either through an aperture in the wall, or vertically from above through the grommets 140mm The hinges must be on the right at the top of the wall frame. with the pins pointing upwards If the cabling is to be routed through an aperture in the wall. P The positions of the cable aperture and the inside edge of the wall frame should P be marked, and the cable aperture cut, before the wall frame is fastened in place. Cut the aperture 140 mm from the inside edge of the top of the wall frame and positioned centrally as shown. Ensure that 500 mm of each cable protrudes through the aperture into the frame as shown. If the cabling is to be routed via the grommets in the top of the wall frame. After fixing the frame to the wall, It is essential that 650 mm of each cable apply silicone sealant all around protrudes into the frame. the inside and outside of the frame to seal the frame to the wall Fasten the wall frame to the wall using fixings which are appropriate to ensure that the wall frame will support the 16 Kg (35lb) total weight of the Mirage. The hinges MUST be on the right hand side with the hinge pins facing upwards. Once the wall frame is fastened to the wall, apply silicone sealant between the wall and the wall frame on both the inside and outside of the frame. Loudspeaker Connections If external speakers are being used instead of the internal speakers the external speakers must have an impedance of 8Ω . Only one pair of speakers may be connected at any one time. The mirror frame weighs 14.5 Kg (32 lb) and when the unit is open during installation all of the weight is on the hinged side.

Cabling Overview

Please note – All electrical installation should be carried out by a competent person in accordance with current IEE wiring regulations.

Mirage Power Supply (12V DC)

The 12V DC power supply unit is not waterproof and so must be positioned in a dry, well-ventilated area outside the bathroom. It is fitted with an integral 4 metre lead which must not be cut, shortened or lengthened - this could potentially damage the power supply unit and the Mirage and have implications regarding safety.

The mains plug of the Mirage should be connected to a mains socket with a protective earth connection supplied via a readily operable disconnection device. The disconnect device such as a circuit breaker or switch should have contact separation of at least 3 mm in each pole and shall disconnect each pole simultaneously.

Either pierce a grommet in the wall frame and feed the cable from the power supply through the frame or feed the cable through an aperture as shown on page 6.

TV Aerial Feed

×

A TV Distribution Amplifier may be required if you are in an area of weak signal or if other televisions are already being fed from the aerial. If in doubt, consult a gualified aerial technician.

If the Mirage is to be used with a Sky[™] box which has two RF outputs, the channel can be changed on the Sky™ box using the Sky™ remote control via the Mirage. To use this facility install a good quality coaxial cable that runs directly from the RF2 outlet of the Sky[™] box, or from the outlet of a Remote-Link amp, in a continuous uninterrupted run.

The Mirage will accept additional inputs from many sources and can be integrated with home automation and interactive hotel TV systems. See pages 10 to 15 for specific information.

Fitting the Mirror Frame to the Wall Frame

Ensure that the Mirage does not come into contact with water whilst it is open.

Fitting the Mirror Frame to the Wall Frame

Ensure that the Mirage does not come into contact with water whilst it is open.

Mirage Connector Array

Ensure that the Mirage does not get splashed whilst it is open.

Connecting an Antenna or Cable

To view television channels, a signal must be received by the Mirage from one of the following sources:

- an antenna
- a satellite receiver
- a cable television receiver.

Antenna Feed

Connect the antenna or input cable to the 75Ω coaxial connector on the rear of the Mirage.

Picture quality is determined by the signal level, it is recommended that a qualified aerial technician is consulted.

The Component and Composite Video Connectors

Ensure that the Mirage does not get splashed whilst it is open.

(A) For Component Video

- 1 Connect the audio cable to the Left and Right Audio connectors (white and red) and the video cable to the Component Y, Pb and Pr Inputs (green, blue and red) on the Mirage and the corresponding connectors on the external equipment such as a satellite receiver or DVD player.
- 2 If the external equipment only has a mono audio connector, it should be connected to the left (white) connector of the Audio Input.

(B) For Composite Video

- 1 Connect the audio cable to the Left and Right Audio connectors (white and red) and the video cable to the CVBS Composite connector (yellow) on the Mirage and the corresponding connectors on the external equipment such as a satellite receiver or DVD player.
- 2 If the external equipment only has a mono audio output, it should be connected to the left (white) connector of the Audio Input.

The HDMI and S-VIDEO Connectors

Ensure that the Mirage does not get splashed whilst it is open.

(A) For HDMI

1 Connect the HDMI cable to the HDMI connection on the Mirage and the HDMI connection on the external equipment such as a satellite receiver or DVD/Blue-ray player.

(B) For S-VIDEO

- 1 Connect the S-VIDEO cable to the S-VIDEO connector and the audio cable to the Left and Right Audio connectors (white and red) on the Mirage and the S-VIDEO and Audio Outputs on the external equipment such as a VCR, DVD player/recorder and some video game devices.
- **2** If the external equipment only has a mono audio output, it should be connected to the left (white) Audio connector.

PC Connections

To use HDMI, connect the HDMI connector of the Mirage to the HDMI connector on the PC using a HDMI cable.

To use PC RGB, connect the PC RGB connector of the Mirage to the PC's RGB connector and connect the PC Audio In connector on the Mirage to the PC's audio out connector.

The SCART Connector

Ensure that the Mirage does not get splashed whilst it is open.

@ C 12VI		PC RGB EURO-SCART	S-Video Component Property Pc In Out Audio	Satellite Receiver, Cable Box or Hard Di Recorder

The EURO-SCART connector can be used with equipment which has RGB or composite video outputs and inputs. The EURO-SCART socket is fully wired as shown above.

12

.

IR Links, RJ12 and RS-232 Connectors

The Mirage infrared remote control uses the NEC protocol. For a full listing of the IR remote control codes see page 55.

Codes received by the IR receiver inside the Mirage can be relayed to an IR emitter via the IR Link Out

The plug for the IR In is a 'stereo' 3.5 mm jack plug.

The RJ12 Connector

The RJ12 connector enables the Mirage to integrate with Interactive Hotel TV systems. The RS-232 Port The RS-232 control port enables the Mirage to be

controlled from home automation control systems.

The Common Interface (CI) Port

If a Conditional Access Module (CAM) is being used to add channels to the Mirage the CAM should be inserted into the CI Port of Mirage with the power disconnected.

Take a note of the Smart Card's serial number and follow the CAM/Smart Card manufacturer's instructions to insert the Smart Card into the CAM and access the service.

The dotted line indicates the edge of the metalwork when a CAM is correctly inserted.

The Smart Card should be activated in accordance with its service provider's instructions before the screws are tightened in the fixing points and the screw caps are inserted.

See page 29 for additional CI/Smart Card information.

Sky[™] Remote Control Link Setup

If the Mirage is used with a Sky[™] box, the channel can be changed on the Sky[™] box using the Sky[™] remote control via the remote control sensor on the Mirage.

The connection to the antenna connectors on the Mirage and the Sky[™] box must be made with both the Mirage and the Sky[™] box disconnected from the mains supply. Use good quality coax cable either directly from the RF2 outlet of the Sky[™] box or the outlet of a Remote-Link amp in an uninterrupted run.

Once the connections have been made, the Sky[™] box must be setup to supply power from the RF2 socket as detailed below.

To set-up the Sky[™] box to work with the Mirage the Sky[™] remote control must be used via the main TV (TV 1).

- **1** On the Sky[™] remote control press **SERVICES** to show the SERVICES menu.
- 2 Press the 4 button for the SYSTEM SETUP menu.
- **3** Press the **0** button, then the **1** button, then the **select** button, in sequence, to display the INSTALLER SETUP menu.
- 4 Press the 4 button to select RF OUTLETS.
- 5 Press the **down** arrow to select RF Outlet Power Supply and press the left or right arrows to change the setting to ON.
- **6** Press the **down** arrow to select Save New Settings and press select to save the settings.
- 7 Press the sky button to return to the previously viewed channel.

The Waterproof Remote Control

Before the waterproof remote control can be used the insulating plastic film must be removed from beneath the battery.

Place the remote control face down on a horizontal flat surface and use the opener to release the battery cover by rotating it in an anti-clockwise direction. Set the battery cover and opener to one side.

Remote control with battery cover removed.

Rest one finger lightly on the battery and pull the printed tag to ease the insulating film from underneath the battery. Try to avoid touching the black O-ring as it is coated in light grease.

Replace the battery cover and lock it back in place using the opener.

Installing the Mirage – Setup and Tuning

Whenever the Mirage is reconnected to the mains supply the touch sensitive controls need time to adjust their sensitivity to match their environment – they should not be touched for 30 seconds.

When the connections have been made as shown on pages 9 to 15 it is time to close the Mirage and secure the mirror frame.

It may be necessary to adjust the position of the cables in order to close the mirror frame easily.

Apply light pressure to the left hand side of the mirror and insert one of the screws through a fixing point and into the wall frame. To ease hole alignment it may be necessary to remove the black caps from the fixing points and loosen the screws. There is no need to fully tighten the screw at this stage.

Switch the mains supply on and the Mirage should show a red indicator light showing that it is in standby mode. The touch sensitive controls need time to adjust their sensitivity to match their environment – they should not be touched for 30 seconds.

Initial Tuning

Press the **POWER** (()) button on the remote control to switch the Mirage on from standby. After a few seconds the **NEW INSTALLATION** menu will be displayed.

The on-screen menus can be in any of the following nine languages: English, Español, Françes, Italiano, Nederlands, Polski, Portugês, Русский, and Deutsch.

- 1 Press the **I** buttons to select the required menu language.
- 2 Press the ▼ button once to select Auto Tuning and press the
 ▶ button to enter the Country selection window.
 - If a Sky[™] box is being used as a source it should be switched on before tuning the Mirage. This will allow the Mirage to tune to the Sky[™] box correctly.

EPG

(┲

3 Select the required country with the ◀▶ buttons. Choose from: Australia, Austria, Belgium, Bulgaria, Croatia, Czech, Denmark, Finland, France, Germany, Greece, Hungary, Italy, Luxembourg, Netherlands, Norway, Poland, Portugal, Romania, Russia, Serbia, Slovenia, Spain, Sweden, Switzerland, UK.

4 Press the \blacksquare button to select **Start**.

Channel Tuning

Radio

5 Press the OK ((or)) button to start the auto tuning.

(MENU)

X

MENU

The Channel Tuning dialogue will be displayed to show the progress of the tuning.

When tuning is complete the Channel Tuning dialogue will be cleared and the first available channel will be selected.

If additional sources are being used with the Mirage their operation should now be checked (see input selection on page 23).

If a CAM is installed make sure it is activated and fully functional as per its service provider's instructions.

Once the Mirage is tuned and external inputs are working correctly, press the **POWER** (()) button on the remote control to put the Mirage into standby.

Securing the Mirage

Apply light pressure to the left hand side of the mirror and insert the screws into the fixing points. Securely tighten the screws by hand.

To ease hole alignment it may be necessary to remove the black caps from the fixing points and loosen the screws. This will allow movement of the catch plate to enable alignment of all screws holes.

Retighten the screws. Insert the screw caps into the heads of the screws and push them firmly into place.

Remove the protective cover from the Mirage glass.

Cleaning Instructions

To clean the mirror and frames, use only a soft damp cloth. Under no circumstances are abrasive cleaners to be used, failure to observe this warning will invalidate the guarantee.

The Touch Controls

Please note – Do not use the touch controls until the power has been on for 30 seconds – the controls need time to adjust their sensitivity to match their environment.

The standard remote control is not waterproof and should not be splashed or immersed in water.

• 21

Switching the Mirage On/Off

Please allow a minimum of five seconds after switching the Mirage off before switching it on again.

1 To switch the Mirage on, press the **POWER** ((**b**)) button.

The LED indicator will show green and Mirage will display a picture within ten seconds.

2 To switch the Mirage to standby, press the **POWER** (()) button again. The LED indicator will show red to indicate that the Mirage is in standby mode

Selecting the On-screen Language

English is the preset language for the Mirage. The language for on-screen menus can be selected during initial set-up or at any time in the future.

Auto Tuning DTV Manual Tuning ATV Manual Tuning Programme Edit Cl Information

.

The on-screen menus can be in any of the following nine languages: English, Español, Françes, Italiano, Nederlands, Polski, Portugês, Русский, and Deutsch.

To change the language used follow the sequence below:

1 Press the **MENU** (MINU) button to display the **Channel** menu.

- **2** Press the **4** button twice to display the **SETUP** menu.
- **3** Press the ▼ button once to select Language.
- 4 Press the ◀► buttons to select the required language.
- 5 Press the EXIT ((EXIT)) button once or the MENU ((MENU)) button twice to save the language choice and close the SETUP menu.
- All the on-screen displays will now be in the chosen language.
- The selected language applies to all modes.

Selecting a Source

If external sources have been connected to the Mirage they may be viewed by selecting the appropriate input.

The Input Source list allows selection of the following: DTV (Digital Television), ATV (Analogue Television), SCART, COMPONENT (Y, Pb, Pr), PC-RGB, HDMI, COMPOSITE, and S-Video.

- 1 Press the **POWER** ((b)) button to switch the Mirage on.
- 2 Press the Input (()) button to display the Input Source list.
- 3 Press the Input () button or the ▲▼ buttons until the required source is selected.

4 Press the **OK** ((or)) button to confirm selection of the chosen input and to clear the Input Source list from the screen.

Press the **EXIT** ((x)) button to close the Input Source list without selecting an alternative source.

On-screen Menu Summary

The CHANNEL menu is the default menu if the menu button is pressed whist watching DTV or ATV – the PICTURE menu is the default menu at all other times.

To move between the two Picture menus press the ▲▼ buttons until the required menu is displayed.

The EXIT, MENU, OK and Arrow prompts are common to all seven menus and have not been included on the following pages.

Auto Tuning

Programme Edit allows programmes to be deleted, skipped or selected as favourites.

Deleted programmes are removed completely and are not available at all until the Mirage is retuned using Auto or Manual Tuning.

Skipped programmes are not available by pressing the **PR**+ (\bigtriangleup) or the **PR**- (\bigtriangledown) buttons but they can be selected from the EPG, the channel list or by entering a channel number directly.

Favourite programmes are included in the Favourite List which can be displayed by pressing the FAV (($\mu\nu$)) button.

Programme Edit in DTV Mode

- 1 Press the **MENU** (MINU) button to display the **CHANNEL** menu.
- 2 Press the ▼ button four times to select **Programme Edit** and then press the ► or **OK** ((or)) button.
- 3 Select a programme with the ▲▼ buttons and press the **Red** button to delete the programme completely and make it unavailable until the Mirage is retuned.

Press the **Blue** button to select to skip past the programme when using the **PR**+ ((\triangle)) or **PR**- ((\bigtriangledown)) buttons to change channel.

Press the FAV ((inv)) button to include the programme in the favourites list or to remove a programme from the favourites list.

4 Press the **EXIT** ((**or**)) button to close the Programme Edit dialogue and save settings.

Programme Edit in ATV Mode

- 1 Press the **MENU** (MENU) button to display the **CHANNEL** menu.
- 2 Press the ▼ button four times to select **Programme Edit** and then press the ► or **OK** ((or)) button.
- 3 Select a programme with the ▲▼ buttons and press the **Red** button to delete the programme completely and make it unavailable until the Mirage is retuned.

Press the **Blue** button to select to skip past the programme when changing channel with the **PR**+ (\bigtriangleup) or **PR**- (\bigtriangledown) buttons.

Press the **Green** button to edit a programme's name using the ◀► buttons to select the character to edit and the ▲▼ buttons to change the character displayed.

Press the **Yellow** button to allow a programme to be moved to a different position in the channel list by using the $\blacktriangle \nabla$ buttons.

4 Press the **EXIT** (Exit) button to close the Programme Edit dialogue and save settings.

CI Information

If a Conditional Access Module (CAM) is installed CI information is available via the CHANNEL menu as follows:

- 1 Press the **MENU** (MIN) button to display the **CHANNEL** menu.
- 2 Press the ▼ button five times to select Cl Information and then press the ► or OK ((or)) button.

If no CAM is installed in the Mirage, the message 'Please insert CI Module' will be displayed.

With a CAM installed the message 'Loading CI MMI...' will be displayed whilst the Mirage accesses the information from the CAM and viewing card.

Main menu		
Module information		
Smart card information		
Language		
Software Download		
Press OK to select, or Exit	t to quit	
EXIT	ОК	T T

When the Main menu is displayed, press the $\blacktriangle \lor$ buttons to select a menu option and press the **OK** (\bigcirc) button to view the available information.

Press the **EXIT** $(\underbrace{\mathsf{Exit}})$ or **OK** $(\underbrace{\mathsf{OK}})$ button to close the menu.

Module information typically includes: Serial number (the 14 digit number on the rear of the CAM), SAP number, Manufacturer, SW version, FW version, Mediaguard version and Download ID.

Smart card information typically includes: Serial number, Account date and Admin date.

The **Language** option allows a language to be chosen from those available for the purchased subscription services.

Software Download allows update of the software and/or firmware in the CAM.

After using any of the above options press the **EXIT** ($\mathbf{k}\mathbf{x}\mathbf{T}$) or **MENU** ($\mathbf{m}\mathbf{k}\mathbf{W}$) button to return to the Main menu (shown above) and press the **EXIT** ($\mathbf{k}\mathbf{x}\mathbf{T}$) or **MENU** ($\mathbf{m}\mathbf{k}\mathbf{W}$) button to close the Main menu.

Changing Channels

There are five ways to change to a new channel on the Mirage:

- Enter the programme number directly by pressing the number keys. When choosing a programme from 1–9 there is no need to press the 0 key first.
- 2. Press the **PR** + (▲) or **PR** (▼) buttons to switch from programme to programme in sequence.
- EPG MENU OK C EXIT

Press the BACK (①) button to switch between the current and last programme that was viewed.

- nce.
- Press the OK ((or)) button to display the Channel List. When the list is displayed use the ▲▼ buttons to select a programme and press the OK ((or)) button to switch to the selected programme.

The **PR** + ((\triangle)) or **PR** - (\bigtriangledown) buttons can be used to move up or down one page at a time.

The Channel List will continue to be displayed for a few seconds or until the EXIT (mr) button is pressed.

Press the FAV ((MV)) button to display the Favourite List. When the list is displayed use the ▲▼ buttons to select a programme and press the OK ((MV)) button to switch to the selected programme. To edit the Favourite Programme list see page 28.

The Favourite List will continue to be displayed for a few seconds or until the **EXIT** (\mathbf{E}) button is pressed.

5. When watching DTV press the **EPG** ((**PG**) button to display the Electronic Programme Guide.

	DTV	10:20	_	21 /	Aug 11.20	_	_
	BBC ONE	Olympi	cs 2008	BBC News	North	OI	ympics 2008
2	BBC TWO	Cash in t	the Attic	Olympics 20	08	Dia	gnosis Murder

	Five	N	lichaela's	Zoo Babies	Five Ne		House
	ITV2	Air	line	Coronation Street	Emme	erdale	Airline USA

When the Programme Guide is displayed use the $\blacktriangle \forall$ buttons to select a programme and press the **OK** ((\circ **k**)) button to select the chosen programme. Press the **Red** button for page down and the **Green** button for page up.

Press the **EPG** ($_{\text{EPG}}$) or **EXIT** ($_{\text{EXIT}}$) button to close the EPG.

Basic DTV Programme Information

The channel number, channel name and signal information are always displayed on screen for a few seconds whenever switching from one channel to another.

Basic ATV Programme Information

The channel number, channel name and signal information are always displayed on screen for a few seconds whenever switching from one channel to another.

Because detailed information is not broadcast on analogue television, pressing the INFO ((i+)) button will display the same information as is shown when changing channel.

Detailed DTV Programme Information

More detailed information about the current programme can be seen at any time by pressing the **INFO** (i+) button.

Press the INFO ((i+)) button again to clear the information banner from the screen.

Program	nme Title					11:34
Thr, Aug 2	21 2008	09:30	•••••	•••••• 10:00		Next 🚽
Subtitle	English	MHEG5	576i			
Programme Classification The broadcaster's information on the selected programme						

The information contained in the banner is as follows:

- Line 1 the programme title and the current time.
- Line 2 the date and the start and end times of the programme.
- Line 3 the availability of subtitles, the audio language, the availability of MHEG digital text, and the video mode (576i denotes standard resolution).

To view the information on the next programme press the ▶ button.

The Electronic Programme Guide (EPG)

Viewing the EPG

PROGRAMME GUIDE

The EPG information is provided by the broadcasters.

Programme entries may appear blank or out of date as a result of the information broadcast on a given channel. The display will dynamically update as soon as new information becomes available.

EPG information can be viewed at any time when watching digital programmes.

1 Press the **EPG** ((**P**) button to display the Electronic Programme Guide.

DTV 2 BBC TWO 10:00 - 11:00 Cash in the)o

(MENU)

OK

- 2 Use the ▲▼◀▶ buttons to move the highlight around the EPG and use the **Red** and **Green** buttons to move down or up one page at a time.
- **3** Press the **OK** (**•K**) button to select the currently highlighted channel.
- 4 Press the EPG (($\mu \sigma$)) or EXIT (($\mu \pi$)) button to close the EPG.

Detailed programme information is available without closing the EPG by pressing the INFO ((i+)) button.

To return to the EPG press the **INFO** ((i+)) button again.

EPG Date and Programme Reminders

The EPG can show programmes up to seven days ahead and reminders can be saved to make the Mirage switch channel so that a chosen programme can be viewed.

Date, Reminder and Schedule options are available by pressing the Yellow, Blue and Green coloured buttons.

- **1** Press the **Yellow** button to select and highlight the Date cell on the EPG.
- 2 Press the **I** buttons to choose a date up to seven days ahead.

3 Once the required date is displayed press the **Yellow** or ▼ button to exit the Date cell.

The EPG now shows two dates, today's date and time is shown above the channel list, with the date of the listed programmes shown in the Date cell.

Setting Programme Reminders

Setting Programme Reminders

Programme reminders make the Mirage switch to a chosen channel at a preset time. Reminders can be saved for any programme which has not started. They can be set to work once, repeat every day, or repeat every week.

To set a reminder:

1 Open the EPG and highlight a programme of interest which has not started.

EXIT **-**HOLD INDEX SIZE TEXT (**=x**) (≡! (≡♣)

2 Press the **Blue** button to open the **Reminder** dialogue.

3 To cancel setting the reminder and return to the EPG press the MENU (MENU) button, or to cancel setting the reminder and return to the television programme press the **EXIT** ((INIT)) button.

If the reminder is to repeat, either daily or weekly proceed to step 5 on the next page.

If the reminder is to be set for a single event press the **OK** ((**oK**)) button and the Schedule List will be displayed with the new reminder added to the list.

4 Press the **EXIT** ((EXIT)) button to close the Schedule List and return to the television programme.

5 To change the mode and make the reminder repeat, press the ▲▼ buttons until **Mode** is selected and press the **♦** buttons to select as below.

- Any data in the reminder can be changed by selecting the appropriate line with the $\blacktriangle \nabla$ keys and altering the setting with the **kevs**.
- EPG MENU) EXIT

6 Press the OK ((OK)) button to save the reminder, press the MENU (MENU) button to cancel setting the reminder and return to the EPG, or press the **EXIT** ((**EXIT**)) button to cancel setting the reminder and return to the television programme.

To view the Schedule List without saving the current reminder press the Green button.

The Schedule List

The Schedule List can be displayed for checking or editing from the Reminder dialogue by pressing the **Green** button.

	SCHEDULE LIST	21 Aug 2008 10:35	
	Title	Time Date Programme	Mode
	Programme 1	17:00 Thurs. 21Aug 3 ITV1	Once
	Programme 2	21:30 Thurs. 21 Aug 6 ITV2	Weekly
	Programme 3	11:30 Fri. 22 Aug 4 Channel 4	Once
	EXIT DELETE		\$ \$
To de	elete a programm	e from the Schedule List:	

- **1** Select the programme with the $\blacktriangle \lor$ buttons.
- **2** Press the **Red** button to delete the programme.
- **3** Press the **EXIT** ((EXIT)) button to close the Schedule List.

Picture Settings

The Picture Mode setting is independently adjustable for each input. For example, DTV can be set to Personal and the HDMI input can be set to Movie for DVD playback.

EPG A MENU OK F EXIT

	PICTURE	
Picture Mode	Standard	
Contrast		
Colour		

	PICTURE	
Picture Mode	Personal	
Contrast		
Brightness		
Colour		
Sharpness		65

Setting the Picture Mode

Four preset picture modes can be selected or, using the Personal option, the Contrast, Brightness, Colour Intensity and Sharpness can be set to preferred levels.

1 Press the MENU (MENU) button.

- 2 Press the ► button to select the first **PICTURE** menu and then press the ▼ button once to select **Picture Mode**.
- 3 Press the ◀► buttons to select any of the different modes as shown below.

4 Press the **EXIT** ((EXIT)) button once or the **MENU** ((MENU)) button twice to save the settings and close the PICTURE menu.

Personal Picture Mode

Contrast, Brightness, Colour and Sharpness can only be adjusted in Personal Picture Mode. Adjustments can be made as follows:

1 Press the **MENU** (MENU) button.

- 2 Press the ▶ button to select the first PICTURE menu, press the ▼ button once to select Picture Mode and press the ◀ or ▶ button until Personal is selected.
- 3 Press the ▼▲ buttons to select Contrast, Brightness, Colour or Sharpness and press ◀ or ► to adjust the selected item.

Adjustments are made with the PICTURE menu hidden so that most of the picture is visible. Only the item being adjusted is shown on the screen.

Contrast •••••• 50

4 When all the settings are as required press the EXIT (INF) button to save the settings and close the adjustment dialogue. Press the OK (OK) button to return to the PICTURE menu.

The Tint adjustment does not apply to Mirage.

The Picture Mode can be changed whilst watching a programme. Press the Picture (()) button to sequence through the five modes.

Picture Settings

The Colour Temperature can be set independently for each input. For example, DTV can be set to Normal and the HDMI input can be set to Personal for DVD playback.

Setting the Colour Temperature

Three preset colour temperature settings can be selected or, using the Personal option, the mix of Red, Green and Blue can be set to preferred levels.

- 1 Press the **MENU** (MENU) button.
- 2 Press the ► button to select the first **PICTURE** menu and then press the ▼ button until the second **PICTURE** menu is displayed and **Colour Temperature** is selected.
- 3 Press the ◀► buttons to select any of the four settings as shown below.

4 Press the **EXIT** ((ENT)) button once or the **MENU** ((MENU)) button twice to save the settings and close the PICTURE menu.

Personal Colour Temperature

The levels of Red, Green and Blue can only be adjusted when using Personal Colour Temperature. Adjustments can be made as follows:

- 1 Press the **MENU** (MENU) button.
- 2 Press the ► button to select the first **PICTURE** menu and then press the ▼ button until the second **PICTURE** menu is displayed and **Colour Temperature** is selected.
- **3** Press the **◄** or **▶** button until **Personal** is selected.
- 4 Press the ▼▲ buttons to select Red, Green, or Blue and press
 ◄ or ► to adjust the selected item.

Adjustments are made with the PICTURE menu hidden so that most of the picture is visible. Only the item being adjusted is shown on the screen.

5 When all the settings are as required press the EXIT ((BUT)) button to save the settings and close the adjustment dialogue. Press the OK ((OK)) button to return to the second PICTURE menu.

Picture Settings

The Aspect Ratio can be independently set for each input. For example, DTV can be set to Auto and the HDMI input can be set to Zoom1 for DVD playback.

EPG MENU OK F EXIT

Setting the Aspect Ratio

If the Aspect Ratio is set to Auto, the Mirage will alter the picture to best suit the programme being received and there will be little need to change the setting manually.

1 Press the MENU (MENU) button.

- 2 Press the ► button to select the first **PICTURE** menu and then press the ▼ button until the second **PICTURE** menu is displayed and **Aspect Ratio** is selected.
- 3 Press the ◀► buttons to select any of the different settings as shown below.

4 Press the **EXIT** (**EXIT**) button once or the **MENU** (**MENU**) button twice to save the settings and close the PICTURE menu.

The aspect ratio can be changed whilst watching a programme. Press the Aspect Ratio () button to sequence through the five settings.

Picture Settings

Noise Reduction can be independently set for each input except PC RGB where Noise Reduction setting is not required.

Noise Reduction

If noise reduction is needed, Auto Adjust is the recommended setting.

Noise reduction can be set as follows:

- 1 Press the MENU (MENU) button.
- 2 Press the ► button to select the first **PICTURE** menu and then press the ▼ button until the second **PICTURE** menu is displayed and **Noise Reduction** is selected.
- 3 Press the ◀► buttons to select any of the different settings as shown below.

4 Press the **EXIT** ((ENT) button once or the **MENU** ((MENU) button twice to save the settings and close the PICTURE menu.

Subtitles

Most DTV broadcasts include subtitles in at least one language. To select subtitles or turn subtitles off press the **SUBTITLES** (()) button and the **Subtitle Languages** list will be displayed.

Press the ▲▼ buttons to select a language or turn Subtitles off and press the EXIT ([ENT]) or OK ((OK)) button to save settings and close the list.

Some DTV broadcasts can include multiple audio languages and/or narrative audio descriptions for the visually impaired (V.I.). The Audio Languages menu allows available languages to be selected and broadcasts with audio descriptions to be chosen if required.

In $\ensuremath{\text{DTV}}$ mode the sound output for the left and right speakers can be selected as follows:

1 Press the AUDIO (Auro) button to open the Audio Languages list.

- 2 Press the **▼**▲ buttons to select the required broadcast language and V.I. option.
- **3** Press the **I** buttons to sequence through the three options;
- L+R, L+L, or R+R.
- 4 Press the EXIT ((x)) button or the OK (()) button to save settings and close the list.

Time Functions

Setting On and Off Times

The time menu allows the Mirage to be programmed to switch on or off at preset times and to switch off after a channel closes down.

Both off and on times have the following repeat options available:

Off, Once, Everyday, Mon~Fri, Mon~Sat, Sat~Sun, Sun.

An off time can be set as follows:

- **1** Press the **MENU** (MENU) button.
- 2 Press the ◀ or ► button three times to display the **TIME** menu.
- 3 Press the ▼ button to select **Off Time** and press the ► button to open the settings window.
- 4 Press the ◀ or ► button to select the required Repeat setting.
- 5 When the **Repeat** has been set press the ▼ button to move down one line and press the ◀▶ buttons to set the Hour. The ◀ or ▶ button can be held down to help set the times more quickly.
- 6 When the **Hour** has been set press the ▼ button to move down one line and press/hold the **◄** buttons to set the Minutes.
- 7 When the off time has been set press the ▼ button to move down to Close and press the OK ((or)) button.
- 8 Press the EXIT ((EXIT) button once or the MENU ((MENU) button twice to save settings and close the TIME menu.

Setting an on time is the same as setting an off time, except that settings are included for Volume and Mode. The range for the initial volume is 0-100 and the options for Mode are: DTV, ATV and Radio.

The Sleep Timer

The Mirage incorporates a sleep timer which can be set to turn the unit off after a preset time. The available delay times are:

10, 20, 30, 60, 90, 120, 180, and 240 minutes.

The sleep timer can be set as follows:

- 1 Press the **MENU** (MENU) button.
- 2 Press the ◀ or ► button three times to display the **TIME** menu.
- 3 Press the ▼ button until **Sleep Timer** is selected and press the ◆ buttons to select the required delay.

4 Press the EXIT ((EXIT)) button once or the MENU ((MENU)) button twice to save settings and close the TIME menu.

An on-screen countdown will be displayed from 30 seconds before the Mirage switches off.

Auto Sleep

- 1 Press the MENU (minu) button.
- 2 Press the ◀ or ► button three times to display the **TIME** menu.
- 3 Press the ▼ button until Auto Sleep is selected and press the
 ◆ buttons to select Off or On.
- 4 Press the **EXIT** ((EXIT)) button once or the **MENU** ((MENU)) button twice to save settings and close the TIME menu.

If auto sleep is set to on, the Mirage will automatically switch off after two minutes with no signal from the chosen source.

Setting the Time Zone

There is a choice of 32 cities in various time zones.

- **1** Press the **MENU** (MENU) button.
- **2** Press the **◄** or **▶** button three times to display the **TIME** menu.

. . .

- 3 Press the ▼ button until **Time Zone** is selected and press the ◀▶ buttons to select choose the appropriate setting.
- 4 Press the EXIT ((xxr)) button once or the MENU ((menu)) button twice to save settings and close the TIME menu.

The Setup Menu

On Screen Language

The on-screen menus and lists can be in any of the following nine languages: English, Español, Françes, Italiano, Nederlands, Polski, Portugês, Русский, and Deutsch.

- To change the language used follow the sequence below:
- 1 Press the **MENU** (MINU) button to display the **Channel** menu.
- 2 Press the ◀ button twice to display the SETUP menu.
- 3 Press the ▼ button once to select Language.
- 4 Press the \triangleleft buttons to select the required language.
- $\label{eq:states} 5 \ \mbox{Press the EXIT (int)} \ \mbox{button once or the MENU (intro)} \ \mbox{button twice} \ \ \mbox{to close the SETUP} \ \ \mbox{menu and save the desired language.}$

All the on-screen displays will now be in the chosen language.

The selected language applies to all modes.

Audio Language

The primary or secondary language are used as appropriate if they are available when a multiple language source is broadcast.

Set the preferred audio languages as follows:

- 1 Press the MENU (MENU) button.
- **2** Press the **◄** button twice to display the **SETUP** menu.
- 3 Press the ▼ button until Audio Language is selected and press the ► or the OK ((or)) button to open the settings window.
- 4 Press the **▼**▲ buttons to select Primary or Secondary.
- **5** Press the **I** buttons to choose the required language.
- 6 When finished, press the ▼▲ buttons to select Close and press the OK (()) button to close the settings window
- 7 Press the EXIT ((ENT) button once or the MENU ((MENU) button twice to save settings and close the SETUP menu.

The Setup Menu

Subtitle Language

The primary or secondary language are used as appropriate if they are available when multiple subtitle languages are broadcast.

Set the preferred subtitle languages as follows:

- 1 Press the **MENU** (MENU) button.
- **2** Press the **4** button twice to display the **SETUP** menu.
- 3 Press the ▼ button until **Subtitle Language** is selected and press the ► or the OK ((or)) button to open the settings window.
- 4 Press the ▼▲ buttons to select Primary or Secondary.
- **5** Press the \triangleleft buttons to choose the required language.
- 6 When finished, press the ▼▲ buttons to select Close and press the OK ((oκ)) button to close the settings window
- 7 Press the EXIT ((xxr)) button once or the MENU ((MENU)) button twice to save settings and close the SETUP menu.

Hearing Impaired

If a broadcast includes alternative audio for the hard of hearing it will be selected when Hearing Impaired is set to on.

- The setting can be changed as follows:
- 1 Press the **MENU** (MENU) button.
- 2 Press the ◀ button twice to display the **SETUP** menu.
- 3 Press the ▼ button until **Hearing Impaired** is selected and press the ◀ or ► button to choose On or Off.
- 4 Press the **EXIT** ((EXIT) button once or the **MENU** ((MENU) button twice to save settings and close the SETUP menu.

The Lock Menu

The lock menu allows a password to be entered so that a number of key settings can be locked, selected programmes can be blocked and parental controls can be imposed.

Lock System

When lock system is on, Auto Tuning, DTV Manual Tuning, ATV Manual Tuning and Programme Edit can not be accessed from the CHANNEL menu without entering the password. All other menu options are not affected.

The Mirage default four digit password is 0000.

To turn the lock system on or off:

- 1 Press the **MENU** (MENU) button.
- **2** Press the **◄** button to display the **LOCK** menu.
- 3 Press the ▼ button and enter the password to access the LOCK menu.
- 4 Press the \triangleleft buttons to select on or off.

5 Press the **EXIT** ((EXIT)) button once or the **MENU** ((MENU)) button twice to save settings and close the LOCK menu.

Change Password

The password can be changed as follows:

- 1 Press the **MENU** (MENU) button.
- **2** Press the **◄** button to display the **LOCK** menu.
- 3 Press the ▼ button and enter the password to access the LOCK menu.
- 4 Press the ▼ button to select **Change Password**.
- 5 Press the ► button or press the OK ((or)) button to open the password window.
- **6** Enter and then confirm the new password.
- 7 Press the **EXIT** ((EXIT) button once or the **MENU** ((MENU) button twice to save the new password and close the LOCK menu.
- If the default password of 0000 is replaced by a user password and the password is forgotten there is no way to access any item on the LOCK menu. Please make sure that any password chosen is memorable.

Block Programme

Blocked programmes can only be viewed by entering the password. The programmes are selected in the normal way but it is necessary to enter the password before the programme is shown.

Programmes are blocked as follows:

- 1 Press the MENU (MENU) button.
- 2 Press the ◀ button to display the LOCK menu.
- 3 Press the ▼ button and enter the password to access the LOCK menu.
- **4** Press the \checkmark button twice to select **Block Programme**.
- 5 Press the ► button or press the OK ((or)) button to open the Block Programme list.

Press ▲▼ to select the channel to block and press the **Green** button to toggle the lock setting for the chosen channel.

- **6** Press the **EXIT** (IXIT) button to close the list or press the **MENU** (IXIN) button to close the list and return to the LOCK menu.
- The OK ((w)) button will make the Mirage switch to the selected channel so it can be viewed when the list is closed.

If the selected channel is locked when the list is closed the password must be entered so that the programme can be viewed.

The Lock Menu

Parental Guidance

The parental guidance option allows any age from 4 to 18 to be select for all programmes. Parental guidance is set as follows:

- **1** Press the **MENU** (MENU) button.
- **2** Press the **◄** button to display the **LOCK** menu.
- 3 Press the ▼ button and enter the password to access the LOCK menu.
- 4 Press the ▼ button three times to select Parental Guidance.
- 5 Press the ◀► buttons to select an age from 4 to 18 or turn parental guidance off.
- 6 Press the EXIT ((ENT) button once or the MENU ((MENU) button twice to confirm the settings and close the LOCK menu.

LOCK

Change Password

Block Program

Restore Setting

Restore Settings

There is normally no need to restore factory settings. It can however, be useful to restore factory settings as an easy way of clearing all restrictions, a forgotten password, blocked and skipped channels, personal settings, etc.

Restore settings should also be used in the unlikely event that the Mirage freezes.

The default factory settings can be restored as follows:

- 1 Press the **MENU** (MENU) button.
- **2** Press the **◄** button to display the **LOCK** menu.
- 3 Press the ▼ button and enter the password to access the LOCK menu.
- 4 Press the ▼ button until **Restore Settings** is selected.
- 5 Press the ◀ button to select Yes and press the OK ((oĸ)) button to restore factory settings.
- After the factory settings have been restored the Mirage must be retuned (see page 25) and, if used, the preferred user password should be reentered (see page 47) as the password will have been reset to 0000.

TEXT

 \equiv

To access DTV Text press the **TEXT** ((=)) or **Red** button depending on the programme's broadcaster. A small banner 'loading...' will be displayed on screen. After a few seconds the broadcaster's menu will appear, either overlaying part of the current programme:

or with the current programme in a smaller window next to the text menus and instructions:

Use the \blacktriangle buttons (or in some cases the \triangleleft buttons) to navigate the menus and the OK ((\circ K)) button to select items. Use the **Red**, Green, Yellow and Blue buttons to access shortcuts, help and additional menus etc., as shown on screen.

To exit DTV Text press the **TEXT** (\equiv), the **EXIT** (\propto) button or change channel.

All DTV Text navigation uses the $\blacktriangle \lor \blacklozenge \lor$, $(\circ \lor)$, **Colour** and 0-9 number buttons, all functions are available with the Mirage waterproof remote control.

Some broadcasters show a red on-screen prompt when DTV Text is available.

To remove the prompt from the screen press the Green button.

DTV Text is not available immediately after changing channel as it takes a few seconds for the Mirage to receive the data from the broadcaster.

ATV Teletext

Functions of Teletext

- Part Display Contents
- A Selected page number.
- B Broadcast Station identity.
- C Current page number or searching status.
- D Date and time.
- E Text information.
- F FasText information. Red, Green, Yellow, Blue

Switching Teletext On

- **1** Press the **TEXT** (\equiv) button once to view the Teletext pages.
- 2 Use the 0–9 number buttons and the Red, Green, Yellow and Blue FastText buttons to navigate the text pages.

The waterproof remote control includes the Teletext functions as show below:

Icon	Name	Functions	
	TEXT	Press the button to turn Teletext on, enter Mix Mode and turn Teletext off.	
(IX)	HOLD	Stops the automatic page change, which occurs if a Teletext page consists of two or more sub pages. The stop symbol is displayed in the top left hand corner of the screen. Press the button again to resume.	
(≡!)	INDEX	Press to return to the index page.	
(E ¢	SIZE	Press button to enlarge top half of the page. Press again to enlarge the bottom half of the page. Press again to return to normal size text.	

Troubleshooting

IR Links and R	J12 Connections
----------------	------------------------

The red/green LED is not lit (Press the POWER (()) button to check if the green LED lights)	 Make sure any isolation switch is set to on. Check that the LED on the AC/DC adaptor is lit. Push the mains lead in to AC/DC adaptor. Try the mains lead on another piece of equipment to prove the lead is OK. Connect another piece of equipment to the Mirage's mains socket to make sure the socket is working. Check the consumer unit (fuse box).
Remote control is not working	 If the IR LED on a remote control is viewed through a digital camera, the IR LED will be seen to light when any button on the remote control is pressed. If the IR LED does not light the battery/batteries should be replaced. If the IR LED is seen to light but the remote control only works within 500 mm of the Mirage, the battery/batteries should be replaced. If the batteries are replaced and the IR LED still does not light the remote control is faulty or the battery/batteries have been incorrectly installed.
No sound from the Mirage	 Check the volume level and that the Mute function is off. Analogue TV – check the correct system is selected for your country. For example, in the UK the setting must be I. See pages 26 and 27 for more information.
Sound and picture out of sync	 This is usually a digital broadcast fault which clears when an alternative channel is selected and then the original channel selected again.
Poor DTV picture or picture breaking up 'blocking'	Refer to a professional aerial installer. This can be due to the condition of the aerial, the location of the aerial, the cable quality/length, or other equipment attenuating the signal. Note: Even though other TVs display a good picture in the same building it does not prove the quality of the signal reaching the Mirage. The only way is to try an alternative TV on the aerial to the Mirage or the Mirage in a known, good location.
A Sky™ box can not be controlled via the Mirage	 Refer to the installation instructions on page 15, check the LED on the Remote-Link is lit. If the LED on the Remote-Link is lit, check that the Sky remote control does control the Sky box directly. Check that the connections and set up of the Sky box, as shown on page 15, are correct. Note the output channel of the Sky[™] box whilst on the RF OUTLETS page. Perform ATV Manual Tuning as shown on page 27 and tune to the output channel of the Sky[™] box's RF2 outlet. Ensure that the Mirage is set to PAL I.

IR Link Out

The IR Link Out is a 3.5 mm mono jack socket. The IR signal sensed by the Mirage is outputted from this socket to an IR emitter. This will enable the remote control of external equipment, such as a DVD player, from the Mirage.

IR Link Out Connections – IR Emitter

IR emitter LED positive terminal to the Tip.

IR emitter LED negative terminal to the Sleeve.

3.5mm mono jack plug

3.5mm stereo jack plug

Sleeve

Rina

IR Link In

The IR Link In is a 3.5 mm stereo jack socket. This socket allows an auxiliary IR sensor to be connected to the Mirage, which enables remote control of the Mirage from a different point other than the front of the Mirage.

IR Link In Connections – IR Receiver

The Mirage will supply +5v DC to power the IR sensor.

IR sensor +5v DC terminal to the Tip.

IR sensor signal output terminal to the Ring.

IR sensor negative terminal to the Sleeve.

RJ12 Connector

This connector is for Hotel TV System Integration. The RJ12 allows command codes to pass to and from the Mirage. The RJ12 pin assignment is internally configurable, to allow the connection of various Hotel TV Systems.

RJ12 Connector – Standard Configuration

Pin No	Function
1	Not Connected
2	Command code from the external equipment to the Mirage. (0V/5V nominal)
3	Not Connected
4	Mirage On signal from the Mirage to the external equipment. (On = 5V, Standby = 0V nominal)
5	0V – DC ground
6	Demodulated IR signal from the Mirage IR sensor to the external equipment. (0V/5V nominal)

Connector on the Interface PCB

Male RJ12 connector - front view

Command Codes via the RJ12 Connector – NEC Protocol.

The codes in the table on page 55 are the codes that will be sent to the Mirage via the RJ12 connector.

The voltage levels that are accepted as an input on pin 2 of the RJ12 connector (command code from external equipment to the Mirage) are:

HIGH + 5VDC LOW 0V

Important: When the input on pin 2 of the RJ12 connector is inactive/idle it must be held **HIGH**. If pin 2 of the RJ12 connector is held low, all subsequent command codes via the RJ12 connector and via the Mirage IR receiver (sent from the Mirage IR remote control) will fail and the Mirage will be non responsive.

Pin 5 of the RJ12 connector is DC ground.

The command codes in the table below are written in the NEC protocol format. Care must be taken when generating the command code. The command codes are written as MSB (Most Significant Bit), LSB (Least Significant Bit). The codes when delivered to the Mirage must be LSB, MSB.

For the command codes in the table below to work correctly the format of the NEC protocol must be INVERTED.

The address is 00FF (hex). An example of the 'Power On' command code written in the table – Power On = 00FFD827

An example of the 'Power On' command code delivered to the Mirage via the RJ12 connector – Power On = 00FF8D72 – LSB first.

Check www.tilevision.tv for updated information.

Command Codes for the RJ12 Connector/IR Remote Control Codes – NEC Protocol – Address 00FF

To program an IR remote control to transmit a signal to operate the Mirage the codes in the table (left) must be entered.

Note:

There is no discrete Power Off code, the Power Toggle On/Of must be used to set the Mirage to standby.

Power Toggle On/Off will set the opposite condition of the Mirage as below.

Mirage On – Power Toggle On/Off – Mirage set to Standby.

Mirage Off – Power Toggle On/Off – Mirage set to On.

Specifications

digiSET 01772 828083

iced by

Design and specifications are subject to change without notice.

RS-232 Port

The RS-232 port is a DB9 male connector. This connector allows Home Automation Systems to send command codes directly to the Mirage.

The Mirage will only receive RS-232 codes, it does not transmit codes. Only pin 2 (receive) and pin 5 (ground) are connected in the DB9 male connector.

To connect to the RS-232 port a DB9 female connector must be used.

If a standard RS-232 port is to be connected to the Mirage RS-232 port, pins 2 and 3 must be cross wired. So pin 3 (transmit) of the external equipment will be connected to pin 2 (receive) of the Mirage.

RS-232	Protocol	
NJ-ZJZ	FIOLOCOI	

Command Code Sequence

Baud Rate38400Bits8ParityNoneStop Bit1

A0 F0 55 FF <Code> <Check Sum>

The time of the command sequence must be < 500 ms.

The interval time of two continuous command sequences must be > 500 ms.
